

Premier Food Products Ltd, Sudan.

The largest and fastest growing dairy and natural fruit drinks plant in the Sudan with a daily capacity of 400,000 litres/day is seeking to fill the following posts in our expanding operation

1. Production Manager

To oversee the production process in our ultra-modern plant, you must have:

Proven experience of production cycle ordering and the drawing up of production schedules

At least 7 years "hands-on" senior level production experience in a modern Dairy/Juice production plant of similar size or larger.

A good understanding of UHT production lines and Yoghurt Production processes

The drive and enthusiasm to succeed in a demanding role

The ability to lead by example, train and manage a workforce to produce results

A production engineering degree or equivalent relevant qualification

2. Warehouse/Stores Manager

To manage the storage and distribution of incoming and outgoing products from our warehouse facilities, you must have:

Proven experience of warehouse management and distribution.

At least 5 years of "hands-on" Senior Warehouse/Stores management experience in handling FMCG.

The drive and enthusiasm to succeed in a demanding role

The ability to train and manage a workforce to produce results

A Logistics/Distribution degree or equivalent relevant qualification

If you have all the experience and qualities listed for any of these posts then we would like to hear from you!

We are offering a generous expatriate remuneration package plus benefits for the right candidates.

Interested applicants should email a covering letter stating current salary plus a copy of their CV to; vacancies@premierfood.net to arrive not later than Friday 25th August 2006.

A full job description and person specification for all posts can be downloaded from: www.premierfood.net
